23 November 2021

Dear Parent

Unfortunately, not all students who had parental consent were vaccinated today. We are trying to find out from the Immunisation Team why that is the case. Meanwhile, the Immunisation Team have asked us to inform you that if your child was unable to have their vaccine in school today, they can book into clinics locally using:

<https://www.twbstaffsandstoke.org.uk/coronavirus/12-15-year-olds>
<https://www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/find-a-walk-in-coronavirus-covid-19-vaccination-site/>

This also includes those student who were absent today, handed their form in late or not at all or they have not yet turned 12.

The guidance for vaccination following a positive test and COVID 19 infection has changed with immediate effect and this is that they should now not be vaccinated until 12 weeks after a confirmed case. If your child is clinically vulnerable or **Lives with** a clinically vulnerable family member then they can still be vaccinated after 28 days.

There is a walk in session available for 12-15 year olds at Tunstall VC, Brownhills Road, Tunstall ST6 4RP on the 28th November between 9.30-3.30pm for those that would be eligible in the above criteria

Also attached is the link for parents to the Pfizer product information
